SZABIST

Final Year Project

Name of Project Advisor: Dr. Adeel Ansari	
Designation: Professor	Department: Computer Science
Highest Qualification: Doctor of Philosophy (Ph.D.)	Area of Specialization: Artificial Intelligence, Computational Algorithms
Contact No: 0333-4443720	Email: adeel.ansari@szabist.pk
Semester: 7th	Year: 2023
Program: BSCS	Cr. Hrs: 3
Compensation Offered Per Project:	

Project Title: Investify - marketplace for all your business needs.

Brief Detail:
Investify: An online marketplace that facilitates the buying and selling of businesses and investment opportunities. This marketplace provides a space for sellers/investees to list their business and attract potential buyers or investors. Likewise, potential buyers and investors can search for businesses that matches their investment criteria.

1) Sellers can list their business for selling and asking for investments in return for some equity:
Sellers who wish to sell their business or seek funding for their business can use Investify to list their businesses. This marketplace allows sellers to provide detailed information about their businesses. Sellers can also specify the amount of funding they require and the percentage of equity they are willing to give up in exchange for investment.

2) Potential buyers can look for businesses they want to buy or invest in:
Potential buyers and investors can use Investify to search for businesses that matches their investment criteria. Once a potential buyer has found a business they are interested in, they can request more information from the seller or even make an offer to buy or invest in the business.

Hardware & Software Tools Required: Laptop, VS Code and other IDEs as per the project needs.

Approximate Cost of the Project: API Integration, Hosting.

Students' Names:

1. Name: Muhammad Faseeh	Reg. No. 2012390
2. Name: Safwan Uddin Mairaj	Reg. No. 2012403
