Bahria College Karsaz, Karachi. Grade A, 72.73%
Secondary School Certificate (SSC). **2008-2018**
Saqib Public School, Karachi Grade A, 79%

PROJECTS:

- **TestIT (February 2023 – Ongoing):** Developing a professional platform for teachers to create and assign MCQ-based tests, enabling 100 percent assessment of student knowledge, fostering engagement, and enhancing educational outcomes. The platform aims to provide a seamless and efficient solution for teachers to assess student understanding effectively, promoting active participation and improving overall educational outcomes. View
  Technology Used: React JS with Typescript, Node JS, Express JS, MongoDB Atlas, React-Router, JWT, Vercel.

- **Investify (September 2023 – Ongoing)**: Creating an investment platform using the MERN Stack for my final year project. The web-app aims to connect small business owners with potential investors, facilitating investment opportunities in exchange for up to 25% of their business profit share. The platform seeks to foster connections and enable small businesses to secure investments, driving growth and financial success without personal guarantees. View
  Technology Used: React JS with Javascript, Node JS, Express JS, MongoDB, React-Router, JWT.

- **Zabdesk Student Portal (May 2023 - June 2023)**: Successfully completed a UI Design Course project involving the development of a new user interface for a university student portal. Leveraged creativity and design skills to create a visually appealing and user-friendly interface for 8 to 10 features within the existing portal. Demonstrates strong proficiency in frontend web development and the ability to enhance user experiences through effective design. View
  Technology Used: HTML, CSS, Javascript.

  Note: For more projects, please visit my Github account.
